EcoXtract® has received the “Solar Impulse Efficient Solution” Label, an award for clean and profitable solutions

EcoXtract® is the breakthrough innovation for natural extraction processes. It is the ultimate sustainable and clean solution to extract lipids, proteins and natural ingredients. EcoXtract® was attributed the “Solar Impulse Efficient Solution” Label following an assessment performed by external independent experts and based on verified standards. It is thereby joining the #1000solutions challenge, an initiative by the Solar Impulse Foundation to select solutions that meet high standards in profitability and sustainability and present them to decision-makers to fast-track their implementation.

To receive the “Solar Impulse Efficient Solution” Label, **EcoXtract®** was thoroughly assessed by a pool of independent experts according to 5 criteria covering the three main topics of Feasibility, Environmental and Profitability. All labelled solutions are part of the #1000solutions portfolio that will be presented to decision-makers in business and government by Bertrand Piccard, Chairman of the Solar Impulse Foundation. The aim of this initiative is to encourage the adoption of more ambitious environmental targets and fast-track the implementation of these solutions on a large scale.

‘Environmental challenges may seem too daunting to be faced. But we need to start somewhere, somehow. This is an unprecedented first as EcoXtract® attacks the angle of the global food system for human and animals. It is one of today’s biggest concern: how to conciliate the preservation of the resources of the planet and be able to feed populations with safer ingredients and products’ says Laurence Jacques, Managing Director of EcoXtract®.

The “Solar Impulse Efficient Solution” Label is one of the first labels for positive impact businesses bringing together protection of the environment and financial viability, the “Solar Impulse Efficient Solution” Label is attributed following an assessment performed by external independent experts. In collaboration with renowned institutions, solutions applying for the label must go through a neutral methodology based on verified standards. This label serves as an award for clean and profitable solutions.

The Solar Impulse Foundation is dedicated to accelerating the implementation of clean and profitable solutions. Moreover, the Foundation is helping decision-makers in businesses and governments to achieve their environmental targets and adopt more ambitious energy policies, which are necessary to pull these solutions to market. A way to carry the success of the first solar-powered flight around the world further.
